

01

SLIDE THE HEADBAND THROUGH THE HEADPADDING

Slide the metal headband through the headpadding, until the headpadding is positioned in the middle of the headband.

02

ATTACH THE EARPADDINGS TO THE SOUND BOXES

This might need some force, but afterwards both modules align perfectly. The arrows on the soundbox provide guidance in which direction to rotate.

03

MOUNT THE SOUND BOXES ON THE HEADBAND USING THE SCREW KNOBS

Make sure the sound box is in the upright position, with the **remote control buttons facing down**.

04

CONNECT THE CABLES FROM THE HEADBAND TO THE SOUND BOXES

They are connected properly when you hear them click. (Don't be too careful, it might take a bit of force to connect them well).

Single touch : Volume down
Press 2 sec : Previous song

GETTING STARTED

TURNING THE BOSS ON/OFF

Turn the headphones on by pressing the **Bluetooth button** for 3 seconds. Your headphones will automatically connect to the device it was paired to previously. Turn the **BOSS** off by pressing the **Bluetooth button** for 3 seconds again.

HOW TO PAIR YOUR BOSS

Press and hold the **Bluetooth button** for 5 seconds. The headphones will tell you it's pairing. The headphones will be named 'RP BOSS'. Once successful, you'll hear a 'dong', confirming the connection.

PHONE CALLS

ANSWER AN INCOMING CALL

Answer an incoming call simply by pressing the **Bluetooth button** once. Press again to end the call.

You know what sucks? Having to buy new headphones (again) because one small part can't be repaired. And your old ones? Either incinerated or dumped in a landfill...

We're here to help you break this cycle. Repeat headphones deliver unparalleled sound quality in a revolutionary modular design, which lasts forever. Because music lovers deserve better.
